

Dixiline has the insights to expand into new markets with SAP Business One®

Before: Challenges and Opportunities

- Legacy system didn't allow Dixiline to find information easily, hindering responsiveness to customers
- Unable to monitor the trends needed to drive growth

Why SAP Business One and Abbasoft

- SAP is renowned worldwide and promises a long-term solution to support future growth
- Crystal reports yield deeper insights into business-critical information
- Abbasoft delivered a smooth and effective implementation, adapted the software to the company's specific needs and created the reports the business now relies on

After: Value-Driven Results

- Greater visibility into production facilities
- Accessible, accurate data available on the fly
- Reliable, real-time financial reporting
- Increased professionalism and better customer service
- An informed perspective to broaden its product offering to customers thanks to better market analyses
- SAP Business One supports Dixiline's growth into new markets

“As we dive into new markets, new products, we expect SAP to support us in all of our endeavors, and so far, so good”.

Curtis Schmidt, Chief Executive Officer, Dixiline.
