

Guardian Products helps set automotive brands apart with **SAP Business One®**

Before: Challenges and Opportunities

- Legacy system didn't allow complete digitization of operations
- As every deal is unique, complexities arose when managing and costing customizable automobile products

Why SAP Business One and Abbasoft

- Having invested in many software products over the years, SAP Business One is anticipated to last a lifetime for the company
- Abbasoft provided Guardian with every necessary third-party connection, surpassing all Guardian's expectations
- Abbasoft has been continuously available to all Guardian's requests, responding promptly and effectively

After: Value-Driven Results

- SAP Business One has enabled automation of the company's processes
- Supports effortless customization of products and cost control
- Easy and precise formulation of sales tax report
- Greater transparency and hence greater customer trust
- Increased competitiveness in the automobile industry, presenting greater growth opportunity.

"We've been on SAP Business for four years now, and have been able to master all the sales tax, all the transitions we need so far"

"SAP Business One was a great investment"
